## INDEPENDENT BOTTLERS

An independent whiskey bottler is a company that obtains whiskey from a distillery and releases it under their own label. They may purchase newly distilled spirit and age it themselves, or may purchase finished casks. Independent bottlers typically age the whiskeys differently from the distillery: the age, location of maturation, and type of cask or cask finish may vary.

The Barrel Thief offers many independently bottled whiskeys, since we appreciate the diversity. Here's a list of the independent bottlers whose whiskey we carry, and the codes that you'll find next to their whiskeys on our menu.
